MAGNETIC MYSTERY

When you Finish your race:

1st priority= ensure pass through timing flags for accurate finish times

2nd priority= recovery from race

3rd Priority= help others with their skis and load yours/ theirs onto the trailer so it can be taken back to the Start area ready for people to catch ferries back etc.(when trailer is full we will take a small crew of paddlers back in our **Mini-Van** to unload those boats who can then shower back at start area and head to Scallywags etc for a coffee and a bite to eat (bring some cash/ card for your lunch) it's also BYO alcohol with meals so potentially plan ahead for that.

This process will happen until all paddlers are finished and Skis back at Nelly Bay.

Leaving Magnetic Island- return Barge trips with ski

We suggest you each stagger your trips to make it easier for the Barge to deal with any walk on skis etc...Your pre-paid ticket/ name will already be with the M.I.F office from us and you would have picked up your ticket on the trip over already. Most people will probably be on a 12pm (faster athletes in a rush) or a 1pm or 2pm Barge (being more social).
